

# 2010 RAPTOR RESEARCH FOUNDATION CONFERENCE

Fort Collins, Colorado, Sept. 22-26, 2010

## Dinosaur Ridge Hawkwatch Visit

Sunday, September 26, 2010

7:30 am – 1:00 pm

Field Trip

Come see the site with the largest Ferruginous Hawk migration in the world! The site is located just west of Denver near Red Rocks Amphitheater. The views are incredible!

This is a *spring* Hawkwatch site, but we have good potential to see fall migrants including raptors and songbirds on the Ridge. This trip will be guided by Jeff Birek, Biologist for Rocky Mountain Bird Observatory. Jeff has worked as a hawkwatcher/raptor bander in California, Virginia and Veracruz, Mexico. He will give pointers on raptor identification, talk about the history of the site, and point out any winged visitors that show up.

The trip will include lunch, snacks, water, and transportation to and from Fort Collins.

Cost: \$25.

Trip Limited to 25 People

*Trip will depart from the Marriott at 7:30 am and have everyone back by early afternoon.*
